

# ERFI MIG 500-4VK

ORIGIN GERMANY

**Danox**  
WELDING PTE LTD

## Features

stepmatic industrial MIG/MAG sets are available as separate feeder versions. Advantage: large covered working range. The power source may remain at its spot, while the lightweight weighted separate feeder is moved to the work zone. Both are linked with an interconnection cable available in 10m length (optional up to 20 m). The feeder is equipped with a fully geared 4-roll wire drive, and feed correction control can be adjusted either on the feeder or on the power source (selectable).
